

What's the Story behind this award-winning Dramatic Comedy series?

Kassie O'Callaghan has stayed in her thirty-year emotionally abusive marriage well past its expiration date. In *What's Not Said*, as she's about to run off with a younger man she'd met on a solo vacation to Venice, Kassie discovers her husband has a life-threatening illness. With her divorce plans derailed once again, *Kassie is forced to decide whose life to save: her husband's or her own.*

In *What's Not True*, Kassie shifts her attention away from the two men in her life and commits to reviving her stalled marketing career. But after a chance meeting with a colleague in Paris and a stroll along the Pont Neuf, she receives two compelling proposals. Before she can grab the gold ring and have it all, *Kassie must fight to protect what's legally and rightfully hers.*

As the saga continues in *What's Not Lost*, Kassie is searching ... for herself and for answers. Convinced managing a company merger in Paris will complete her, her dream comes tumbling down when she learns her fiancé's ex-girlfriend is pregnant. Despite pleas from her fiancé to stay in Boston, Kassie heads to Paris. There, she stumbles into a world of wine and roses, putting her strengths and beliefs to the ultimate test. When a Greek businessman tries to rescue her, *Kassie discovers—in life—it's not whether you win or lose, it's the way you love that counts.*
